RE: Case No. 2006-00229

In response to the Arbitration proceedings initiated by Logan Telephone Cooperative, we find no merit in entering into an interconnection agreement with Logan Telephone. When first contacted by Dinsmore & Shohl (representative for Logan), we asked for a usage analysis on traffic exchange they were referring to, we received no response to that request.

We have looked into our switching when a prefix owned by Logan Telephone is dialed via our switching facilities and have found that all traffic we send to those prefix's are completed through a Long Distance Carrier, we have no local exchange with Logan Telephone.

NTCH, Inc. is a small rural PCS provider, our closest tower facilities to the Logan Telephone BTA would be in Union City Tennessee, and Martin Tennessee. The two codes used for those areas are 731-991 and 731-255, neither code is allowed to complete a call to the Logan Telephone BTA as a local call.

Please feel free to call me if you have any questions or concerns.

Sincerely,

Thomas Sams
